Peugeot Partner

Seating configurations

Space & Comfort» Several seating configurations, then when required, the ramp can be simply folded flat to increase the boot area.

The Peugeot Partner Flexi-Ramp raises the bar for travelling in comfort in a small wheelchair accessible vehicle. The vehicle is equipped with the patented 'Flexi-Ramp' system allowing a full size luggage compartment with no obstructions when the ramp is stowed, or easily unfold the ramp and create ample space for the wheelchair.

There are various seating options available to accommodate up to 4 persons plus 1 wheelchair occupant*. The vehicle is available with either a manual or an automatic gearbox to suit all drivers.

The Peugeot Partner Flex-Ramp is one of the most versatile small wheelchair accessible vehicle on the Irish market today.

Seating options

Space & Comfort» Several seating configurations, then when required, the ramp can be simply folded flat to increase the boot area.

The standard seating allows two front passengers and up to two rear seated passengers plus wheelchair occupant, depending on model of wheelchair. The rear seats can be folded down to their original factory installed configuration, or removed one at a time to create more space. This offers true versatility in the vehicle. The illustrations above, labelled 'A, B & C' show the available seating configurations.

The ramp is configured to offer a low ramp gradient, allowing the least effort possible to be used to push the wheelchair occupant into the vehicle.

You could even select the optional powered winch to pull the wheelchair into the back of the vehicle.
